

Asimina triloba

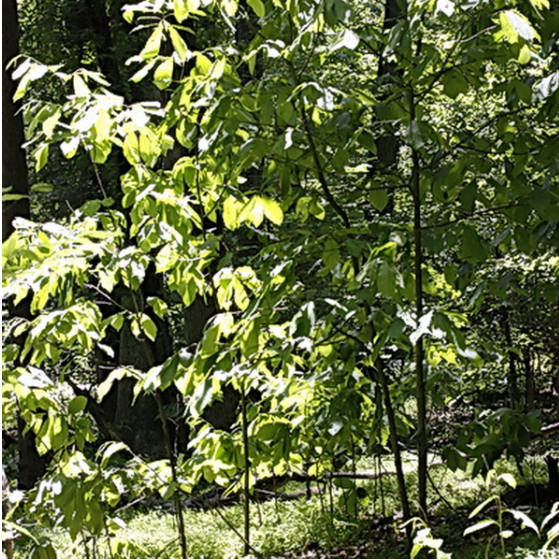

Photo by Shirley Denton. Photograph belongs to the photographer who allows use for FNPS purposes only. Please contact the photographer for all other uses.

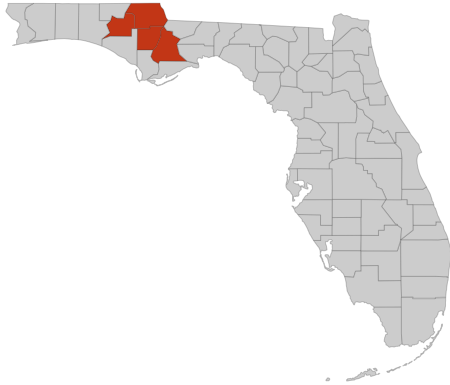

Common Pawpaw, Dog-banana, Indian-banana

Annonaceae

Plant Specifics

- Size: 15-20 ft, may be clonal.
- Life Span: Long-lived perennial
- Flower Color: Red
- Fruit Color: Green
- Phenology: Deciduous
- Habitats: River floodplains, predominantly to the north of Florida. In most of Florida, *Asimina parviflora* would be more appropriate yet very similar in appearance.

Natural Range in Florida

USDA Zones

Suitable to grow in:

Landscaping

- Recommended Uses: Small specimen tree. Also works well as a component of floodplain forests.
