Natural Range in Florida

USDA Zones

Suitable to grow in:

2002-2022, Copyright Florida Native Plant Society

Railroadvine, Lavender Goatfoot Morning-glory

Convolvulaceae

Plant Specifics

- Size:** Stems are 60+ ft long (stems are long but prostrate). Foliage hugs the ground.
- Life Span:** Short-lived perennial
- Flower Color:** Pink, purple
- Phenology:** Evergreen. Blooms summer (north) or all year (south).
- Habitats:** Beach dunes.

Landscaping

- Recommended Uses:** Makes a nice groundcover in an informal dry yard. In nature, it is an important stabilizer of beach dunes.
- Light:** ☀ Full Sun
- Moisture Tolerance:** Not wet but not extremely dry ----- to ----- Ver long very dry periods
- Salt Water Flooding Tolerance:** Not salt tolerant of inundation by salty or brackish water.
- Salt Spray Tolerance:** High. Can tolerate significant and ongoing amounts of salty wind and salt spray without injury.
- Soil/Substrate:** Sand

Wildlife

Attracts insects, especially bees.
