## General Condition

Overall good. Plants look healthy and many weeds were removed and significantly decreased. Soil is moist.

## Weed Rating

4.5 – there was a large number of weeds removed prior to the install in majority of the beds. Regular maintenance will help reduce the amount and them from coming back

## Service Provided

Weeding, clipping, pruning, edged garden beds, pond install, and plant install. 15 bales of pine straw were delivered and installed. Laid 11 bags of melaleuca to the pathway.

## Concerns

Muhly grass in front left bed has rotted slightly under the excessive growth

## Recommendations

Regular maintenance to help reduce weeds from taking over  
Need more melaleuca to finish the pathway
